
Integrate contact field

Hi,

I set up a quiz with the ARI Quiz Lite module and it works perfect! Now I wanted to add the options for a user to write his contact data (Name, Email) into the quiz, so that it appears in the result EMail to the admin. How do I have to edit the Free Answer question to make this possible?

Hello,

"ARI Quiz" can show "Name" and "Email" fields on quiz description page for guest users. "ARI Quiz Lite" doesn't support this ability.
