hello,
    I have one unusual problem. once the end time of question turns to red the save button will disappear, even question time is increased, when the time comes to 30seconds the save button will disappear. and this problem persists in only IE browser. but works fine in mozilla and chrome. can you suggest something.
Plz, waiting for your reply.. :(

Hello,

Do you mean 'ARI Quiz' or 'ARI Quiz Lite'?

Could you provide link where we can see this issue because we can't reproduce it on our test server?

PS: Post questions about "ARI Quiz Lite" in appropriate forum category, please, because "ARI Quiz" and "ARI Quiz Lite" are two different components.
