Hello,

See "Languages" and "Languages Frontend" pages on component backend.

Hello,  
I did what you suggested, removed english frontend language, addes italian language, set it as default language, and modified the texts, but in the frontend nothing changes. Am I doing something wrong? Thanks..

Hello,

Could you provide a link to a page where we can see the problem and a temporary access to your J! backend by email so we can investigate it?

Ok, now I changed directly the language file en.xml, but there aren't the textes of the final screen..  
Where can I send the credentials to log in?
