## questions in random order

Posted by amitvns04 - 2013/04/24 05:40

---

I want to display the questions in random order and also some of the all questions only i.e.

1-in a quiz, questions should be appeared in random order.

2-a quiz should have many questions like 200 or 300, but a participant will be asked 50 questions only

---

Hello,

1. Enable "Random Question" parameter in quiz settings to show questions in random order.

2. Use "Question count" parameter in quiz settings or question categories settings to specify how many questions should be selected.

Regards,  
ARI Soft
