Time in minutes instead of seconds

Posted by jamijares - 2010/05/26 23:20

_____

Can the time taken to complete a test be capturedand displayed in minutes instead of in seconds?
In seconds quantities are much higher and confusing, ie a 2hr test is 7200 seconds, who can figure that quickly?

_____

Hello,

Do you mean "ARI Quiz" or "ARI Quiz Lite"? "ARI Quiz" shows a quiz time on frontend in normal format. It uses "hours : minutes : seconds" format.

Regards,
ARI Soft
