
Additional settings

Posted by Radas - 2013/12/29 12:21

Hello,

i've installed ARI Quiz Lite into my joomla but i have problem with Additional settings. I can't see options like:

"Skip" button

"Stop" button

"Terminate" button

"Calculator" button

I only see checkbox Can Skip. How i can see other options? Because i want to terminate quiz whenever user wants and then get results.

=====

Hello,

These options are available in "ARI Quiz", they are not available in "ARI Quiz Lite".

Regards,
ARI Soft
