
change the name of com_ariquiz

Posted by amitvns04 - 2014/01/17 11:37

sir
can I change the ari quiz lite's component name from com_ariquizlite to "quiz"

=====

Hello,

Where do you want to change it?

Regards,
ARI Soft

in url field like index.php?option=com_ariquizlite&task=quiz&quizId=7&Itemid=964

i just want to change the coloured section that is com_ariquizlite to mock_test

=====

"option" contains name of a component (it is used by Joomla! system to call the component), it is not possible to change it for non-SEF links. For SEF links possible to use custom routers and create human readable links like domain.com/Quiz/1-Demo-Quiz.html and etc.
