Hi,
this is my issue: two quiz that I did with Ari Quiz Lite (<http://disturbisessuali.altervista.org/test-disturbi-sessuali-femminili.html> and <http://disturbisessuali.altervista.org/test-disturbi-sessuali-maschili.html>) don't show results, but only a blank page,
can you help me?
Thanks,
Ale

Hello,

Select text template(s) in "Successful Template" and "Failed Template" parameters in quiz settings.

Regards,
ARI Soft
