
label choice and additional button

Posted by radek - 2014/05/25 14:45

Hi,
how to change label choice insted of "choice 1" and so on, i wanna only "a" , "b" and "c".

Is there any chance to add additional button with correct answer (explanation), if not a button so maybe a tooltip or something else?
I know this function is designed only for ari quiz, but maybe for small payments there is a chance to change ari quiz lite.

i have no button 'back'

regards
radek

Hello,

You can read how to remove "Choice" label here.

If you want to show correct answers and explanation, you can upgrade "ARI Quiz Lite" to "ARI Quiz". All data remain untouched after upgrade.

Add the following CSS rule to a site template CSS file:

```
TD.ariAnswerChoice {  
    vertical-align: middle;  
}
```

This problem with site template styles. Add also the following CSS rule:

```
TD.ariAnswerChoice INPUT {  
  margin-top: 0 !important;  
}
```

Add the following CSS rule:

```
TABLE.ariQuizHeaderTable TD,  
TABLE.ariQuizQuestionTable TD {  
  border-width: 0;  
}
```
