## Acces to root file \"types of questions\"

Posted by grasping - 2014/06/22 08:54

---

Hi. I want some edit ARI Quiz Lite component, for add new some new types of questions. It's important for me, because my thesis topic related to this. I spend a lot of time for find root (base) fail including types of questions, but I don't find this.

Can I discover, where is this fail?

P.S. I'm sorry for my bad english.

Hello,

See files in the following folders:

\\administrator\\components\\com\_ariquizlite\\kernel\\Entity\\\_QuestionEntity\\

\\administrator\\components\\com\_ariquizlite\\templates\\questions\\

\\administrator\\components\\com\_ariquizlite\\templates\\statistics\\

\\components\\com\_ariquizlite\\view\\questions\\

and see also data in #\_\_ariquizquestiontype table in Joomla! database.

Regards,

ARI Soft
