## Countdown in minutes instead of seconds

Posted by Daws - 2014/09/04 10:16

Hello, I set up a time limit quiz (30 minutes) is it possible to display the quiz countdown in minutes (30) instead of seconds (1800)?
May I modify any php or configuration file?
Thank you
Daws

Hello,
The extension can show this time only in seconds. "ARI Quiz" shows hours, minutes and seconds.
Regards,
ARI Soft
