
Why don't question templates appear?

Posted by Herrera - 2014/12/13 16:41

Hi,
I need help about the following issue. I have installed the Ari quiz lite plugin for Joomla! 2.5, my categories and questions appear in my development web but the question templates, in this case YES/NO, don't appear bellow the question, I only have "Continue" button.
Could someone help me, please?.
Thanks in advance.

Hello,
Thank you for you quickly answer. The link is <http://smile.quijost.com/es/social/quiz?task=quiz&quizId=1>.
Bellow the question should appear the 2 option for the question, YES or NO, but it is not.

Regards.

The link which you sent if for quiz description page when "Continue" button is pressed, the first question from the quiz is shown.
BTW, we don't see "Continue" button. It seems we don't have permissions to take the quiz.

It seems the quiz doesn't contain questions. Click by "View" link in "Questions" column for the selected quiz on quizzes page to manage quiz questions.

I'm sorry, but I don't find "View" link in "Questions", Is it in the properties of my component on the back-end?
Thanks.
