Multiple errors arisexylightboxanywhere

Posted by alexmartin - 2015/06/22 22:29

_____

In my error log i have may similar errors. It is possible to fix it?

 PHP Strict Standards: Only variables should be assigned by reference in
/public_html/plugins/system/arisexylightboxanywhere/arisexylightboxanywhere/kernel/Plugin/class.LightboxAnywherePlug
in.php on line 47
 PHP Strict Standards: Only variables should be assigned by reference in

_____

Hello,

Upgrade the plugin.

Regards,
ARI Soft

_____

Upgraded. Cache cleaned. Errors remained.

See new error log file after installation with multiple errors please in attachment
Please help.
Looking forward
Thank you

_____

Download the extension again please and upgrade "ARI Sexy Lightbox" module and "System - ARI Sexy Lightbox
Anywhere" plugin. If it doesn't help, could you provide a temporary access to your J! backend by email so we can
investigate the problem?

Regards,
ARI Soft
