
can't save any question

Posted by DamonWilder - 2016/10/04 15:31

Hello,

I'm using the "Ari Quiz Lite" component with Joomla 3.6.2.
I made a quiz category, questions categories and of course a quiz. Everything works well.
But I can't save any question. I tested it again and again, but nothing happens.

Can anybody help me please?

Thanks alot.

Damon

Hello,

Download and update the component. It should help.

Regards,
ARI Soft

Yes! It works!

Many, many thanks for this nice and fast support!
