Changing radio button labels

Posted by surgeon - 2010/12/30 08:38

_____

How can I change the labels of the radio buttons in case of single question type? I would like to abandon the numbers on the left side of the radio buttons and change the labels Yes/No on the right to Ja/Nein. I couldn't find this items in language frontends. Can anybody help me?

Thank you very much indeed.

_____

Hello,

1. Edit /components/com_ariquizlite/view/questions/singlequestion.html.php file that remove numbers. Replace the following code:

with

2. Answers for questions are set on questions settings page. Enter "Ja", "Nein" instead of "Yes" and "No".

Regards,
ARI Soft

_____

It works now fine!

Thank you and have a happy new year!
