_____

I have bought ARI slider and installed in my site with Joomla 1.6.   I have a few articles with same layout .   For some reason, all the images collapsed into the first articles. Here is my site link   http://www.jenniferfieldbankruptcy.com
Please help,
Thanks.

Hello,

This problem with CSS styles of articles which is loaded into the slider. Add the next CSS rules to "Styles" parameter in module settings or to site template CSS file:

.ari_slider_item .float-box
{
 float: left;
}

.ari_slider_item #headerslide2 IMG
{
 margin: 0 !important;
 position: relative !important;
}

Regards,
ARI Soft
