reverse at the end of sliding?

Posted by mistan - 2011/03/08 02:53

Can I set the slide reverse back at end the end of slides? 1>2>3>4 instead of 4>1>2>3>4, goes like 4>3>2>1

Tony

Hello,

Currently the extension doesn't support this ability. We will try to add it within 2 days.

Download and upgrade "ARI Slider" module. New version contains new parameter "Reverse rotate".
