why the slider is not displayed correctly in IE?
Posted by weranda - 2011/03/12 07:34
_____

I bought this extension, but it does not work correctly.
why the slider is not displayed correctly in IE?
Explain to me how to make the extension to work correctly in IE 9?

Hello,

Could you explain what problem you have? Is it possible to see it anywhere? Is the module shown incorrectly only IE 9 or in IE 7 -8 too?

Regards,
ARI Soft

Here is the extension works on your site and on my site too.

The module is shown incorrectly only IE 9 and mayby in other versions IE, bu i not pruf.
The module is shown incorrectly in IE in September and maybe in other versions IE, but i not tested it.

We have installed the latest version of IE 9 (get it here) and check our demo page. The module works fine in IE 6, 7, 8 and 9. See screenshot below:
