Hello,

This is a problem with Flash object HTML code, add wmode="transparent" attribute to tag. Currently code looks like:

replace it with:

Following is the code I used, flash still stays on top of the lightbox. ??

```
var params = {};  
params.wmode = "transparent";  
params.visibility="true";  
swfobject.embedSWF("http://portsina.com/Joomla1/images/MIS_Video/AlbumTemplateDemoC.swf",  
"AlternativeContent", "230", "340", "8.0.0", params);
```

Thanks, Tony

It is incorrect code. Use the next:

```
swfobject.embedSWF("http://portsina.com/Joomla1/images/MIS_Video/AlbumTemplateDemoC.swf",  
"AlternativeContent", "230", "340", "8.0.0", null, null, {"wmode": "transparent"});
```
