## [SOVLED]Lightbox won't work in FF?

Posted by mistan - 2011/03/13 09:26

---

Any reason why lightbox does not work in FF, fine with Chrome and IE? I am using FF 3.6.15 with windows 7.[link here](#)

Sorry about all these problems.

Tony

Update: worked fine with FF in my win XP computer. ???

Update: It appears to be my proxy server. Does that make sense to you???

It works fine in FireFox browser on our side. Maybe it was a problem with cache.

It is possible, but it is hard to specify exact reason of the problem because we can't reproduce it.
