Joomla 1.6.3 Text not showing.

Posted by fastcarsspeed - 2011/06/24 11:36

I can see the text in the source of the page and the slider is working but no text is showing. I have looked at the ini file multiple times and cannot figure out what the heck is up.

http://www.paulassociatesinc.com/

If anyone can take a look and give me a pointer it would be great.

Hello,

Set "Opacity" parameter to 1.

Regards,
ARI Soft
