
Toggle efect

Posted by palyga007 - 2011/08/31 16:48

Hi!

I would like to add toggle effect to ari slider like on this page:
www.marcintyszka.com/index.php?id=234

Simple toggle without anything else.

How to do that?

Best regards

palyga007

Hello,

If you mean ARI Slider, it supports fade effect. If you mean ARI Image SlideShow, unfortunately it doesn't support described effect.

Regards,
ARI Soft
