# Slider Options
Posted by dimna - 2011/12/21 15:40

_____

Is it possible to slide an Image above another image?
Thanks

Astrid

_____

Hello,

Could you provide an image where we can see what do you want to achieve?

Regards,
ARI Soft

_____

I have two small images. Up to know I put them together on one Slide. You have a parameter for this: â€œItems per pageâ€•.
But it would be great if it is possible to slide them in not at the same time. Because that are different pictures and the only
reason, why I put them together is, that on image is not width enough to fill the screen.
Thanks
Astrid

_____

The extension doesn't work in this way. Probably possible solution to show these images in two different slides?

Regards,
ARI Soft

_____

Yes, but then I have so much empty space. Thatâ€™s why I thought about this solution.

_____

Could you provide an image where we can see a problem and what do you want to achieve? It would be more
descriptive.

Regards,
ARI Soft

_____

Here you can see one image and other images, those slides over this image:
http://hpp.com/de/projekte/bautypologien/buero-und-verwaltung/koeln_rheinhallen.html

Kind regards
astrid

_____

Sorry, but "ARI Easy Slider" doesn't work in this way.

Regards,
ARI Soft
