Position some DIVs ontop of the image slider

Posted by wmuckell - 2012/04/25 13:30

_____

I have a site in development here that I want first the telephone number to appear over the image slider, I have done this but it disappears when the images slide to next.

I also want to do the Logo underneath so any suggestions on that would be appreciated.

PROBLEM FIXED

_____

Hello,

What browser do you use? It works fine in FireFox browser.

Regards,
ARI Soft
