Hello,

after the image changes, the menu is hidden from the slider. It doesnt happen when I use Chrome, but with IE and firefox I have a problem.

I tried the CSS rules from the other threads, but didnt work.

Thanks in advance.

Hello,

This problem with site template styles. Add the next CSS rule:

```
body #ja-topsl
{
 position: relative;
 z-index: 1;
}
```
