iam getting the following error message
Posted by jcornell - 2012/09/14 19:34

_____

JFolder: :files: Path is not a folder. Path: home/1/s/sh/shb2_118/thewellingtonatsevenhills.com/public_html

this comes up on the frontpage and will not go away

_____

Hello,

Remove empty lines from "Image path" parameter in module settings page. If it doesn't help, provide a link to a page where we can see the problem and a temporary access to your J! backend by email so we can investigate the problem.

Regards,
ARI Soft
