Hi,

I tried all the solutions you have given earlier but it seems strange that it does not work. Can you help me out.

The URL is <http://ciphercraft.in/projects/shrusti/>

Im using SWMenu for the menu.

Hello,

This problem with site template styles. Add the following CSS rules:

```
header
{
  z-index: 2 !important;
}
```

```
#slider
{
  z-index: 1;
  position: relative;
}
```

We can recommend to contact developers of menu module. It seems this problem with menu "z-index" property.
