## Transparent Background/ left justify text

Posted by givensel - 2012/12/28 07:18

---

Aloha,

I've just purchased the ARI Slider and love it.  
But....

I'm looking for a way to make the background transparent instead of white and also a way to left justify the text.

Any ideas.

Mahalo.

Hello,

Could you provide a link to a page where we can see slider on your site? Site template styles can affect on slider content (because articles are loaded into slider).

Regards,  
ARI Soft

Thank you for your response.

Here is the link to the site:

Re: Test 12-29-12

I would like to be able to have the background transparent, have the text left justified and show the read more button.  
Is there a way to do this?

Add the following CSS rule to "Styles" parameter in module settings:

```
DIV.ari_slider
{
  background-color: transparent;
}
```

And add the following code to "Item Template" parameter:

Thank you it worked.  
Is there a way to left justify the body text?

Try the following CSS rule:

```
DIV.ari_slider DIV.ari_slider_item_inline
{
text-align: left;
}
```
