
Button image reduced

Posted by cwest204@gmail.com - 2013/03/12 18:47

Hello I have searched the forum, and did not see a similar question(s).

1. Why is my image appearing so small, and how would I fix this issue?
2. Is there anyways to use the module without the borders?

<http://treslo.com/index.php/services>

Thanks in advance, great module!

Chris

Hello,

1. Could you explain what images do you mean?
2. Add the following CSS rule to "CSS Styles" parameter in module settings:

```
DIV.ari_slider
{
  border-style: none;
  box-shadow: none;
}
```

Regards,
ARI Soft

Wow, thank you so much for the quick response. The change to the CSS Styles worked out fantastic!

I'm sorry for being vague regarding the images. I'm referring to the images that are the buttons that can be on the top, bottom, or side of the slider. The ARI slider comes stock with these images, about.png, imac.png, iphone.png, macbook.png <http://www.ari-soft.com/images/fbfiles/images/macbook.png>. The images are 32x32px, and I want to change it to an image (attached) which is 280x28px.
<http://i.imgur.com/Cuy2YYb.png>

Can you help me out?

Again, thanks so much for the CSS code.

Sorry, we mean "Styles" parameter.

About icons, the extension works with 32x32 images. If you want to use icons with another size, it requires to modify the extension.

Thanks again, however that doesn't work in "Styles" I save nothing changes and within the "Styles" box all that is there is a 0.

Its ok, I'm just going to go find a different module. Stinks I paid for this and not even going to use it.

Problem with "Styles" parameter occurred in Joomla! 3.0. We fixed this problem. Updated module is available in "Member Area".

The following solution is used for menu icons with 80x60 size. You can adapt it for size of your images:

Add the following CSS rules:

```
BODY .ari_slider .ari_slider_menu UL LI
{
  height: 70px;
  width: 80px;
}
```

```
BODY .ari_slider .ari_slider_menu UL LI A
{
  height: 60px;
}
```

```
BODY .ari_slider .ari_slider_menu
{
  height: 70px;
}
```

and modify the following images to appropriate sizes:

/modules/mod_arislider/includes/js/img/active_bg.png

/modules/mod_arislider/includes/js/img/panel.jpg

Regards,
ARI Soft
