[SOLVED] Round edges?

Hello,

I'm a pretty newbie here and have a question on ARI Image Slider.
I use it on a website-to-be in top position. Is it possible to have rounded edges?
Here's the link to the page:

Thank you for helping.

Hello,

Add the following CSS rules:

.ari-image-slider
{
 border-radius: 8px;
}

.ari-image-slider IMG
{
 border-radius: 10px;
}

Regards,
ARI Soft
