problem with Image Links
Posted by olena - 2013/05/21 10:13

Hi.
I have Joomla version 2.5.11 and just installed ARI Image Slider.
I created INI file and uploaded it to folder "images/slider" with images, but no links appear.
Thanks in advance.

Hello,

Where we can see the slider?

Regards,
ARI Soft

budstandart_rus.jpg
creative_cloud_rus.jpg
kaspersky.jpg
Office365_for_SMB.jpg
