
Changing the black background of ARI slider

Posted by jmphilip - 2014/10/25 21:34

Hi,

I would like to change the background color outside the bow, which is black by default into another color. How can I do?
Thanks a lot

Hello,

Add the following CSS rule to "CSS Styles" parameter in module settings:

DIV.nivoSlider {background-color: red;}

Regards,
ARI Soft
