## Image Slider missing when in frontend editing mode

Posted by idekonsult - 2015/04/22 15:48

---

Hi!

When I let my end user login to the frontend they don't see the ARI Image Slider or anything below that on the websites first page. It's all blank.

If I unpublish Image Slider the things below it is visible again.

How can I solve this? They really want to be able to edit the article that is placed below the Image Slider module.

Joomla 3.4.1

ARI Image Slider 2.1.12

Thanks in advance!

Hello,

Could you provide a link to a page where the problem occurs so we can investigate it?

Regards,  
ARI Soft

[www.fastcall.se](http://www.fastcall.se) ("Start" page)

Thanks!

---

---

Set "Load jQuery method" parameter in module settings to "Local copy" value.

Now it works!

Thanks!!!
