Ari Slider doesnt shows Moduls

Posted by uart - 2010/09/09 18:57

_____

Okay now i get it to work (forgett to set images before).
But now i have the Problem that he doesnt shows the Moduls like Chronoform or Google Maps in my Articles.
I just see the code.
Is there any solution to get that work?

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue?

We have updated the module. It provides new parameter 'Parse plugin tags', upgrade the module and set this parameter to 'Yes', please. This should help.
