
CSS/Template how to style it?

Posted by uart - 2010/09/11 15:20

Where is the CSS for the Slider?

I dont need the grey border and i need a different background color.

But i cant find the CSS or the code to change it.

Hello,

CSS file is located by the following path:

/modules/mod_arislider/includes/js/slider.css

You can use the following CSS rule that avoid the border and change background:

```
DIV.ari_slider
{
border-width: 0px;
border-style: none;
-moz-box-shadow: 0 0 0 0;
background-color: red;
}
```

Can you tell me please what to add or change to the CSS to remove the themes bullets from appearing in the thumbnail navigation.

Thanks

Hello,

Could you provide link to page where we can see the problem? It seems this is a problem with site template styles.

Regards,
ARI Soft

Add the next CSS rule to site template CSS file:

```
.art-post .ari_slider ul > li
{
background-image: none;
}
```
