## Plugin ARI Sexy light anywhere- Keep size=1 code

Posted by chakkaramole - 2011/01/22 06:09

---

<http://mooshikan.org/movie-news-download-mp3-watch-online/5564-payyans-download-online-movie-mp3?start=2#content>

I have kept the image size keep size=1 but not working. Please let me know

The following code I applied

```
{arisexylightbox activeType="picasa" user="chakkara234" album="Pyn" keepSize="1"}{/arisexylightbox}
```

Hello,

"ARI Sexy Lightbox" v. 1.7.9 provides ability to use "keepSize" parameter for "Image gallery" source type, not for Picasa photos. It can be found in original post. If you want to use this ability with Picasa photos, download "ARI Sexy Lightbox" v. 1.7.10 and upgrade "ARI Sexy Lightbox" module and "System - ARI Sexy Lightbox Anywhere" plugin.

Regards,  
ARI Soft

## Re:Plugin ARI Sexy light anywhere- Keep size=1 code

Posted by chakkaramole - 2011/01/30 05:29

---

```
{arisexylightbox activeType="imglist" dir="images/stars/actress/anushka" keepsize="1"}{/arisexylightbox}
```

I use the code above to view the images of its original size and it works fine.

Then I used the following code to view the images fit to the screen

```
{arisexylightbox activeType="imglist" dir="images/stars/actress/anushka"}{/arisexylightbox}
```

But the images still showing the original size!

---

Hello,

Check that "Image gallery -> Keep image size" parameter is set to "No" in "System - ARI Sexy Lightbox Anywhere" settings or add keepSize="0" to the last code:

```
{arisexylightbox activeType="imglist" dir="images/stars/actress/anushka" keepSize="0"}{/arisexylightbox}
```

PS: We can't open provided link. It shows 404 error page.

## Re:Plugin ARI Sexy light anywhere- Keep size=1 code

Posted by chakkaramole - 2011/02/02 11:27

---

```
{arisexylightbox activeType="imglist" dir="images/cik1" keepsize="1"}{/arisexylightbox}
```

I have set the following code to show the image of its original size. But not working

---

Parameters are case-sensitive. Correct code looks like:

```
{arisexylightbox activeType="imglist" dir="images/cik1" keepSize="1"}{/arisexylightbox}
```
