
It only shows code in frontpage.

Posted by Pete_cph - 2011/02/10 09:48

Hi!

I'm new to lightbox and I want to list some pictures from a folder in an article. I have installes and enabled everything. But when I type in

```
{arisexylightbox activeType="imglist" dir="images/stories/lightbox" thumbWidth="150" thumbHeight="150" thumbType="resize" behavior="crop"}/{/arisexylightbox}
```

it only shows the code on frontpage. No pics at all. What am I doing wrong?

If you use a WYSIWYG editor, switch it to plain text mode and check that plugin code looks correct. If it doesn't help, could you provide link to page where we can see this issue?

Sure!

The link is:

http://www.ferieidyl.dk/index.php?option=com_content&view=article&id=46&Itemid=28

Sorry, but this page doesn't contain plugin code. Maybe you provide wrong link?

Well, it does. Strange. You can't see it when you view the source code, but it is in the html code for the article in joomla administration. It looks like this (I've only pasted the last of the page code) Uden morgenmad

```
{arisexylightbox activeType="imglist" dir="images/stories/lightbox/" thumbWidth="150" thumbHeight="150" thumbType="resize" behavior="crop"}/{/arisexylightbox}
```

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue?

Regards,
ARI Soft
