Load lightbox after an image is clicked

Posted by davemoss - 2011/04/13 09:00

Is it possible to embed the code to load the lightbox from an image on a page? So when it's clicked it opens the lightbox.

Help appreciated

Hello,

Sure, it is possible. You can find code sample here or here.

If you need more assistance let us know.

Regards,
ARI Soft
