
What I did wrong?

Posted by eridano - 2012/10/29 10:39

Hi to all.

I installed "plg_content_arisexylightboxlite.zip" (Content - ARI Sexy Lightbox Lite - 1.2.0).

I didn't modify any settings (just enable plugin)

In new article I wrote:

When I click on very small image (<http://www.ottica-e-ottica.it/images/matrimoni/esempio/400px/000-copertina-w-400px.jpg>) , my browser simply change page with new one with big image.

What I wrong?

Hello,

Where we can see the problem?

Regards,
