Linking from Ninja Eye menu

Posted by gofer123 - 2012/12/04 04:21

_____

Hi,
I've been trying to use ARI Sexy Lightbox to create a lightbox from the image links in Ninja Eye menu,
http://extensions.joomla.org/extensions/structure-a-navigation/menu-systems/fisheye-a-carousel-menus/2964
This is the site I'm working on: http://www.elandesigndev.co.nz/hardwood/index.php/sports-flooring
If look near the bottom of the page you can see the Ninja Eye menu, I want to be able to click on these tn's so a lightbox
appears.
Is this possible?
Thanks in advance.

_____

Hello,

It is possible with help of System - ARI Sexy Links plugin from ARI Sexy Lightbox package.

Regards,
ARI Soft

_____

Hi,
Thanks for the reply, do I just need to buy the Sexy Lightbox at $12.00?
Cheers

_____

Yes, the plugin is included into "ARI Sexy Lightbox" package.

_____

Hi,
I purchased the Sexy Lightbox, installed OK, then installed Sexy links plugin and enabled it but I don't know where to go
from here, sorry.
I've included a screen shot of Ninja Eye menu, you will be able to see where I need to insert your special link.

Thanks in advance

_____

Hello,

Set "Elements CSS selectors" parameter in "ARI Sexy Links" plugin to the following value:

"DIV.nineyehoriz A"|width=700&height=500

PS: Don't forget to install "ARI Sexy Lightbox" module and enable "System - ARI Sexy Links" plugin.

Regards,
ARI Soft

_____

Thanks for that, I've installed both items OK, selected the image I wanted, that appears as a thumbnail and when you click on it a lightbox appears but it has the default Ninja window (http://ninjaforge.com) I'm just not sure what I should be inserting in the Ninja menu details, as in the screen shot I sent.
Cheers

_____

It is not necessary to change settings of menu module. Configure only "System - ARI Sexy Links" plugin as we described in our previous post. If you have any problem with it, you can provide a temporary access to your J! backend by email and we will help to configure the plugin.

Regards,
ARI Soft
