Cant close sexy light box on IE6
Posted by stefanthorpe - 2012/12/07 08:51

There is no X (exit/close) on IE6 and as such user can't return to the previous page.

This would normally be an issue but 24% of users in china still use IE6 and this is the companies main demographic.

What can I do to resolve this.

Hello,

Where we can see the problem?

click on passion or romance.

I have noticed none of the buttons appear

Download and upgrade "ARI Sexy Lightbox" module. After this clean browser's cache. It should help.
