
Lightbox color half black and half white?

Posted by click2grow - 2012/12/12 21:50

<http://preview.click2grow.com/index.php/sermons>

Here is the section on the page above that I am using the anywhere plugin code to show vimeo videos of past sermons...

Watch Sermons Online

11/2012 Kingdom of Heaven Mobile Version
9/2012 Do Yourself a Favor, Forgive - Part 2 Mobile Version
9/2012 Do Yourself a Favor, Forgive - Part 1 Mobile Version

When you click any of the sermon titles the vimeo video opens with black on the bottom and white on the top. I want it to be all black. Also, the bottom section slides to the right of the video so it is off-center and looks out of alignment.

Hello,

Do you use "ARI Sexy Lightbox" module, "System - ARI Sexy Lightbox Anywhere" plugin or "System - ARI Sexy Lightbox" plugin?

Regards,
ARI Soft

This is currently set up using the "System - ARI Sexy Lightbox Anywhere" plugin but I also tried the syntax listed in the help guide for the "System - ARI Sexy Lightbox" plugin and got the same results.

Set "Background" parameter to black in plugins settings or add background=#000 parameter to Vimeo video url. For example use the following link:

<http://vimeo.com/8245346?background=#000>

instead of

<http://vimeo.com/8245346>

Regards,
ARI Soft

OK, I thought if I had the theme set to Black I didn't need to do the background also. That fixed it so that it is all black, but the bottom still shifts to the right out of alignment with the rest of the player in Google Chrome. Any thoughts on that?

Try to add the following CSS rule to a site template CSS file:

```
#SLB-Contenedor
{
  overflow: visible !important;
}
```

Regards,
ARI Soft
