Dissable auto-centering for ARI Sexy LightBox ?

Hi,

I am about to use ARI Sexy Lightbox module on a Joomla 1.5 site. This is a great extension and it works very well on my development machine, I just would like to ask how can I prevent the auto-centering of the popup, as this is not good on a mobile device (i.e. Android phone), because when the user uses the zoom-in functionality that Android phones provide, then popup moves off the screen.

Many thanks in advance,
Costas

Download and upgrade "ARI Sexy Lightbox" module. After this clean browser's cache. v. 1.10.4 provides better support for mobile devices.
