## Youtube video not loaded first time

Posted by blaci - 2013/01/08 09:37

---

Hello,

First, sorry my bad english. :-(

I've a site where I use ARI Sexy Lightbox. Here is the link:

<http://film-farm.hu>

There is a module box with an official Joomla image. The settings is the following:

```
{arisexylightbox activeType="rcontent" width="800" height="450" url="http://www.youtube.com/watch?v=WyA1dzfKywg"
title="Video"}Official Joomla Image URL{/arisexylightbox}
```

My problem is the following: When I first time clicked the image the video not loaded in. Just the progress bar is visible.

Please help me. Thank you so much!

Best regards,  
Laszlo

Hello,

Increase value of "Resize duration" parameter in plugin settings. For example set it to 1 instead of 0.

Regards,  
ARI Soft
