Hi there. I am trying to run ari sexylightbox lite, but it is still opening image in new tab. Here you can see it: http://www.masazruzomberok.sk/certifikaty
Thx for your kind help in advance.

Hello,
Set "Include jQuery" parameter to "Yes" in plugin settings.
Regards, ARI Soft

Thx for quick answer. This setting is already set to "Yes": http://www.arisoft.com/images/fbfiles/images/2013_03_06_140935.jpg
Re:Lite version does not work in Joomla 3.0 Posted by admin - 2013/03/06 13:12
jQuery is not loaded on your site. It can be removed by a 3rd party extension. We can investigate the problem in more details if you provide a temporary access to your J! backend by email.
Regards, ARI Soft

Lite version does not work in Joomla 3.0
