
Images showing under Menu Tabs

Posted by kkowal - 2013/03/20 22:51

http://www.ari-soft.com/images/fbfiles/images/menu_ari_issue.jpg

The lightbox is showing underneath the top menu when I use Google Chrome or Internet Explorer 9 on a Windows 7 machine.

Has anyone else had this issue. Any solutions to it?

Hello,

Could you provide a link to a page where we can see the problem?

Regards,

Add the following CSS rule to a site template CSS file:

```
BODY .art-nav
{
  z-index: 20000;
}
```

What browser do you use? It looks normal in FireFox and Google Chrome browsers.

I am using Chrome on a 64 bit Windows 7 SP1 machine. It seems to be fine in IE9.

Try to clean browser's cache. It works fine for us in Google Chrome.
