
Show specific images from a folder

Posted by pk2kpitaes - 2013/04/23 14:31

Hi good morning.

I need to put a link on my website that when I click show specific images from a folder. How I can do this?

Thank you very much for your help.

Hello,

Do images have the similar names? It is possible to use a regexp for file names.

Regards,
ARI Soft

Hi, thanks for your quick response!

The images have different names. Example of an image name
20130408204831_B5450911.jpg

I await your comments

Thank you very much.

Regards

You can use the following plugin code for "System - ARI Sexy Lightbox Anywhere" plugin:

```
{arisexylightbox activeType="imglist" dir="images/albums1" fileFilter="20130408204831_B5450911.jpg" type="customtext"}Click me{/arisexylightbox}
```

It will show the lightbox with 20130408204831_B5450911.jpg image from /images/albums1 folder when a user clicks by "Click me" link.

Many Many thanks!

Can I use any folder within Joomla or be "ClientXX/"?
What would be the code to display more than one image?

Thank you very much.

You can specify path to folder(s) in "dir" parameter. Separate image names by | symbol:

fileFilter="20130408204831_B5450911.jpg|image02.png"

Hello,

I have used the code as I indicastes, which was in the following way

```
{arisexylightbox activeType="imglist" dir="src/DE000000"  
fileFilter="20130422140643_DE000000.jpg|20130424001721_DE000000.jpg" type="customtext"}CLICK  
ME{/arisexylightbox}
```

I managed to display the link "CLICK ME" but by clicking on nothing happens.

That may be happening?

Thank you very much. <http://www.ari-soft.com/images/fbfiles/images/1-b2ed9811e8511f48a699309d26c5b986.jpg>

Dear friends, I am sorry to bother again but the problem persists.
I described the problem in detail via e-mail with screenshots, is there any solution to this?

From already thank you very much

Best Regards
