HWD Video in Lightbox
Posted by DanielSw2 - 2010/05/03 14:05

Hey there,
Is it possible to display a hwd video in the sexy lightbox?

Greetings :)

Hello,

Could you explain your need? Do you mean HD video? Do you want to display it from YouTube or another service or you mean something another?

Regards,
ARI Soft

---

hey,

now i mean the joomla video gallery component Hwd Video Share (http://hwdmediashare.co.uk/) and i want to display a video in a lightbox)

The extension doesn't provide this ability, but if you explain your needs, we'll think about implementation this feature in a future release. Do you want that video from HWD component pages are shown in lightbox or you want to display video(s) by video id or video category id(s) in articles?

Regards,
ARI Soft

Then i want to show a image and when you click about that the video should open in the lightbox. When it is possible to display a youtube video it must be also possible to display a hwd video, right?

HWD video page contains field 'Embed Code', you can copy code from this field and paste it into an article in the following way:

{arisexylightbox activeType="icontent" width="425" height="355" link="Show video" title="My video"}{/arisexylightbox}

Type video embed code instead of placeholder.

Regards,
ARI Soft

Re:HWD Video in Lightbox

Posted by DanielSw2 - 2010/05/03 18:25

Oh thank you it works :)

And how can i make that a image instead of a link is there?

As you can see here http://k190-d1.s34.tune-up-it.de/basis/die-sims-3/videos.html over the video is a white line with the height of the close buttonm, can we make that the player is at the top of the lightbox without the white line?

Thanks

You can place HTML tag between {arisexylightbox} and {/arisexylightbox} for showing an image instead of a text.
Regarding background issue, we have updated the extension and now it contains new 'Background' parameter which can be used for setting background of the lightbox for external pages or inline content. You can download updated extension in 'Member Area' on our site.

Regards,
ARI Soft

Okay i will try it with the image.
I've downloaded the newest version of the lightbox but the withe line is nevertheless there.
Should i add everything to the code?

==========

Re:HWD Video in Lightbox

Posted by admin - 2010/05/03 20:51

Specify 'Background' parameter on 'ARI Sexy Lightbox' module settings page or on 'System - ARI Sexy Lightbox Anywhere' plugin settings page, it depends on what you use module or plugin. In your case, set this parameter to #000000 (black color).

Regards,
ARI Soft

Oh yeah that works.
Is it also passobile to push up the video to the top of the lightbox?

Re:HWD Video in Lightbox
Posted by admin - 2010/05/04 06:14

If you want to show a video on the same level with "Close" button, it's impossible because it breaks rounded corners.

Regards,
ARI Soft

Re:HWD Video in Lightbox
Posted by DanielSw2 - 2010/05/04 17:08

But the image corners in the lightbox are round too.
But with the black line it's good too.

Thx

When lightbox loads an image, it's used as background and rounded corners look fine, but this approach isn't possible for video files.

Regards,
ARI Soft

Could you show me how i can show a image instead of a text or with the text on the following example:
{arisexylightbox activeType="icontent" width="735" height="460" link="Show video" title="Die Sims 3 Intro" "}{hwdvideoshare}id=87|width=725|height=425{/hwdvideoshare}{/arisexylightbox}

---

hey,
i found a other solution look here: http://k190-d1.s34.tune-up-it.de/sims3-videos/trailer
it would be great if you click on the image then the lightbox will be open.

Re:HWD Video in Lightbox

Posted by admin - 2010/05/10 20:06

We have updated the extension. Download and upgrade 'System - ARI Sexy Lightbox Anywhere' plugin, please. New version provides new way to use the plugin. For you needs, you can use the following syntax:

{arisexylightbox activeType="icontent" width="735" height="460" link="Show video" title="Die Sims 3 Intro"}
{link}

{/link}
{content}
  {hwdvideoshare}id=87|width=725|height=425{/hwdvideoshare}
{/content}
{/arisexylightbox}

Regards,
ARI Soft

Re:HWD Video in Lightbox

Posted by DanielSw2 - 2010/05/10 20:29

Wow Thank you.
Is it also possible that the text is under the image? Or should i make this with a second code?

Greetings

==========

Re:HWD Video in Lightbox

Posted by admin - 2010/05/10 20:33

Yes, you can extend text of {link} tag:

{arisexylightbox activeType="icontent" width="735" height="460" link="Show video" title="Die Sims 3 Intro"}
{link}

Die Sims 3 Trailer #1
{/link}
{content}
{hwdvideoshare}id=87|width=725|height=425{/hwdvideoshare}
{/content}
{/arisexylightbox}

Regards,
ARI Soft
