Complications after moving to another server
Posted by DanielSw2 - 2010/06/01 21:19
_____

Hey there,

Today we moved from another server and now we have some Problems with the mod_arisexylightbox.
When we go on this page here: http://83.169.43.105/index.php?limitstart=20 there appears some Warnings:

Warning: Unable to open source image in
/var/www/vhosts/simway.net/httpdocs/modules/mod_arisexylightbox/includes/kernel/Image/Asido/class.driver.php on line
582

Warning: Failed to initialize image operations in
/var/www/vhosts/simway.net/httpdocs/modules/mod_arisexylightbox/includes/kernel/Image/Asido/class.image.php on line
231

What is the problem?
Thank you.

Greetings

Hello,

Could you say in what module (module name or module id) these errors occurs?

Regards,
ARI Soft

Ok i found out that the warnings appears when this post here: http://83.169.43.105/die-sims-3-traumkarrieren/315-die-sims-3-traumkarrieren-29-hq-bilder is activated.

Maby the warnings come because the images are png, what do you mean?

Oh sorry,
that was definitely the wrong link, i've changed the link now.

_____

These warning message appears because the following image is corrupted:

http://83.169.43.105/images/sims3/traumkarrieren/bilder/screenshots/1/022.png

Fix or delete this image and everything will work fine.

Regards,
ARI Soft

Okay thank you, it works now:)

But have you noticed that the loading image not appears?

Ok good now it works:)

I want to translate to buttons fron the lightbox like: next, close,... in german. Have you got the psd files from that buttons?

Greetings
