
Plugin Descriptions & hyperlink to Pop Up Image

Posted by ponyack - 2013/11/15 23:03

Hi,

Can I use a text file to create the description, title & link for the pop up image using the plugin?

Here is the code that I using

Thanks,

John

Hello,

Title can be defined with help of "title" attribute of `<img>` tag. The extension doesn't provide ability to define a link in `<img>` tag.

Thanks for the quick reply.

is it possible to add hyperlink in the title?

Posted by admin - 2013/11/16 17:55

For example use the following title attribute:

```
title="<a href='http://www.google.com/'>link</a>"
```

Is this what its supposed to look like?

```
title="Visit W3Schools"
```

It will not work

Open HTML source of the page and you will see the code differs from the code which we provided. It can be a problem with WYSIWYG editor which you use.

I am not even using a editor and it changes the code, is this a joomla issue or yoo theme?

Thanks for the help I was actually missing the >

right here

Sorry for the run around

=====

Re:Plugin Descriptions & hyperlink to Pop Up Image

Posted by ponyack - 2013/11/16 18:52

But if you look here

<http://dev.crg.ponyack.com/#>

The link works but places the site name before the hyper link
